Our Approach

We believe we can achieve even more when we team up with others, and so work

alongside partners, donors and organisations to fight poverty and injustice

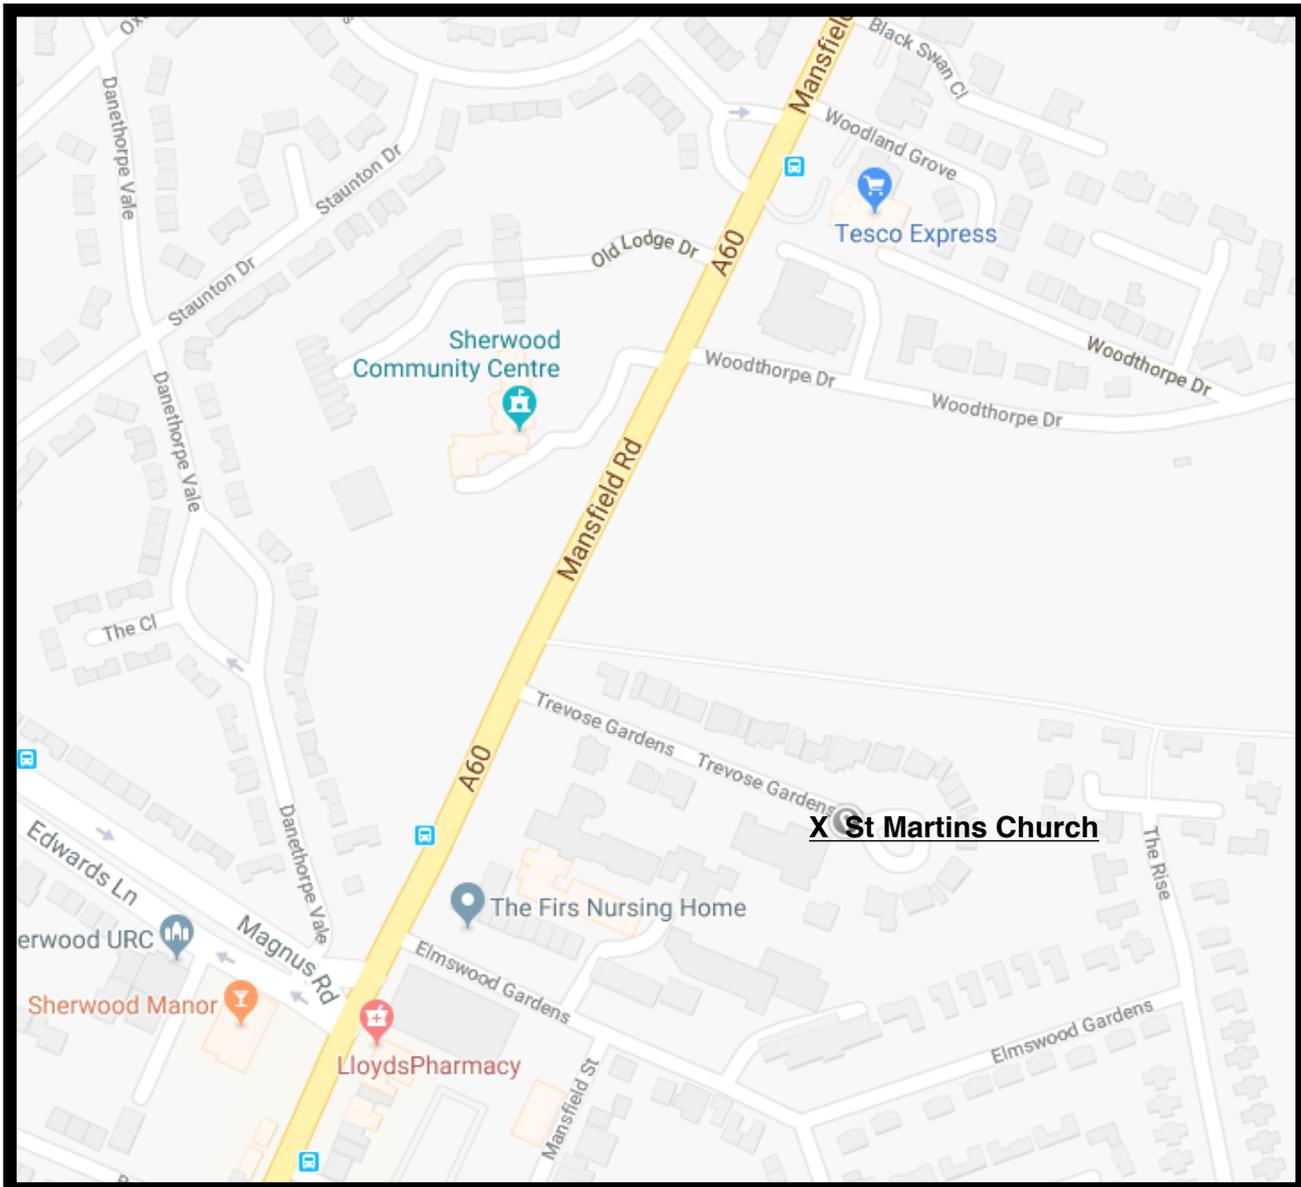

As the official relief, development and advocacy agency of 41 sponsoring churches in Britain and Ireland, we work as part of a worldwide church community.

Christian Aid Week 13-19 May
Christian Aid in Haiti

Christian Aid has supported partners on the island of Hispaniola since the 1980s. We have always worked with underprivileged Haitians, Dominicans and Haitian migrants and their descendants who were often – and continue to be – excluded from state support in both countries.

The earthquake in 2010 had a devastating effect on Haiti, which was already the poorest country in the Western Hemisphere. However, slowly but surely, the country is rebuilding and moving on from this disaster.

Barriers to development include widespread poverty, environmental degradation, a weak government and deep levels of corruption, but the work of Christian Aid and its partners is making a real difference to the lives of poor Haitians. Haiti is vulnerable to global food price rises as it is largely dependent on imported food. That is why supporting Haitian producers is a key part of Christian Aid's work here.
